Capitola, Cal.

WE take pleasure in presenting herewith our catalog and price list for our many customers and prospective customers. It has been our desire in preparing this catalog to list such items as are in demand by the Florists and Seed Stores and we present below the reasons why we are better equipped to handle these orders than ever before.

For the convenience of our Southern customers we can make shipment of Florida grown stock direct from growing station at Jacksonville, Fla.

Display Cards for Your Counter Trade

To those who retail bulbs we offer free of charge display card reproductions in natural colors. It is important that you have these as they are of considerable assistance in increasing sales and obtaining new customers.

SERVICE

We maintain offices and warehouses at New York and California and carry a complete line of fall bulbs in stock for our customers' requirements.

Wire orders are filled the same day as received by us. All others within 48 hours of receipt. Your inquiries are welcomed and we are pleased to make suggestions as to culture or selection when requested.

We have a representative in your territory. Let us have him call on you.

PRICES

Allow us to sound a word of warning to those who contemplate placing orders based upon competitive quotations. During a period of declining prices such as we have had recently, competition has developed into a frenzy of price cutting with the inevitable result that quality is sacrificed for the sake of price. Skimping on price when purchasing bulbs invariably results in depreciated returns at blooming time.

We maintain that quality for quality our prices are lower than those quoted by others not interested in maintaining the high standard which we have set up.

SQUARE DEAL

To those who have dealt with us for years we need not repeat our policy of square dealing. To our new customers we desire to say that at all times we are anxious to adjust differences. Occasionally, mistakes occur and we receive requests for adjustments. Many are not our fault but our policy of "a square deal for the Florist" will not allow us to overlook them.

WE GUARANTEE

That all bulbs leave our farm or warehouse in good condition, packed in boxes sufficiently strong and substantially secure to insure delivery in good order but we do not assume risks in transit.

That all stock is true to name as represented.

That all stock is inspected and found to be sound and free from disease when shipped.

WE DO NOT GUARANTEE

Productivity — The actual growing of flowers is subject to many conditions over which we exercise no control. We allow five days after delivery for inspection by the purchaser and cannot entertain complaints made after the expiration of this period.

All requests for adjustments must be made in writing to our main office at 149 West 24th Street, New York City and we assume no liability for those made verbally to our salesmen or in any other way.

RYNVELD'S OUTSTANDING DAHLIAS

THE varieties listed on this page have been selected as being exceptionally suitable for the florist trade. Not only have we considered these varieties in respect to their value, as a market cutflower, but we have also considered the range of colors always in demand.

Particular attention has been paid to these varieties the past season while they were in bloom at our farms in Long Island, and it is based on actual experience that we recommend this list.

AMERICAN TRIUMPH (Cactus). The color is what we would call—a real red—medium long stems. Profuse bloomer. When cut it will keep longer than any other variety.
 Per Doz.....\$7.00 Per 100.....\$50.00

AVALON (Dec.)—Pure clear yellow, the large flowers are very distinct, with full center. One of the best of its color.
 Per Doz.....\$1.25 Per 100.....\$8.00
 (Not as good a stem as LoRocco, but a better yellow color.)

149-155 West 24th St., N. Y. C. **F. RYNVELD & SONS** Capitola, Calif.
